

MAYOR JIMMY WHITE: I'm Jimmy White. I'm the mayor of the town of Richton. Although the salt dome is not inside the city limits, it is in close proximity to the city limits, within a mile. Obviously we are concerned any time that anything comes up pertaining to the salt dome. Initially we feel that this is a very laudable process to take and a laudable undertaking for us, and it would be of extreme value for our community and our town in offering jobs that are much needed, as well as take care of a national problem that we have with oil storage. So we do support it, at least at this time from what we know. Thank you.
